Objective

Motivated and detail-oriented graduating senior earning a Bachelor of Science in Computer Technology with a focus on IT Security (May 2025). Seeking an entry-level position in Information Technology where I can apply my hands-on experience with Active Directory, network administration, troubleshooting, and TCP/IP protocols. Eager to contribute to the protection and performance of company systems, learn from seasoned professionals, and grow within a collaborative and security-focused IT environment.

Experience/Course projects

Wireshark Filter to Analyze Packets

Used wireshark filter expressions to analyze common internet traffic. I was tasked with capturing packets on Youtube.com and CNN.com within a specific time frame

Running containerized applications with docker

Installed Docker, managed containers, and ran containerized applications on Ubuntu, Linux Mint, Ubuntu Server, and CentOS Server.

Vulnerability analysis/ Patch management & Service configuration

Performed a vulnerability scan on the provided virtual machine and identified weaknesses exploited in the system.

Reported vulnerabilities and their potential impact.

Applied the latest patches, configured firewalls, and closed unused ports.

Detailed patch log and service configuration documentation.

Education

Bowie State University / Computer Technology

September 2020 - May 2025

Skills

- Microsoft Office Suite
- TCP/IP
- Hyper V
- Windows OS Troubleshooting
- Linux OS troubleshooting
- Mac OS troubleshooting
- Software and OS security
- Computer networking
- Active directory

- WireShark
- DNS Configuration
- Nmap
- Vulnerability scans
- Java coding
- Python coding
